## ABOUT US...

Sona Ceramic is the brainchild of Mr. Ramesh Patel, a visionary and foresighted man, who founded the company in Morbi, Gujarat in 1991. Mr. Ramesh along with his son Jasmin propelled the company to great heights. They have collectively strived for achieving the best, led by the vision of the company's founder.

Mr. Ramesh Patel is an able leader with a clear vision, strong determination, and foresighted outlook. Due to his unmatched brilliance and entrepreneurship, he has achieved huge success in a remarkably short period. Mr. Patel has led Sona to carve a niche for itself in the extremely competitive ceramic industry.

In today's times, Sona Ceramic spells a unique combination of style and substance. Right from the outset, Sona made its presence felt by achieving many milestones and accolades in the form of several prestigious awards.

The milestones achieved by the company include the prestigious ISO 9001:2015 and an award for Product Excellence from the Indian Ceramic Society.

Sona has been regularly applauded for its innovative products with several shields and awards. To name a few, the company received the "National Award in Quality Products in SSI ( Sanitary ware ) 2001" which was conferred by the then Vice President of India, Shri Bhairon Singh Shekhawat.

Due to its consistent excellence, Sona has been conferred a National Award for "Quality Product in Micro and Small Enterprises (Ceramic-Sanitaryware segment)" in 2009. by Her Excellency, Former President of India, Smt. Pratibha Devisingh Patil. This ceremony was organized by the Ministry of Micro Small and Medium Enterprises of Government of India.

Due to its consistent efforts, Sona Ceramic is now a global player in ceramics and is a name to reckon with, internationally.

## ACHIEVEMENTS..

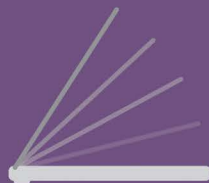

# PRODUCT FEATURES

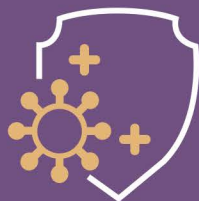

## RIMLESS FLUSHING

- Quick & easy to clean
- Provides more day to day hygiene
- Superior flushing as it distributes water around the closet more effectively

## SOFT CLOSE SEAT COVER

- Quick fit seat cover
- Easy to install & remove feature
- Slim soft-close seat cover

## ANTI-BACTERIAL

- Antibacterial coating prevents the growth of harmful bacteria
- Resists lime scaling
- Special glaze gives superior surface finish and sparkling appearance

## UF SEAT COVER

- The high-quality material ensures smooth hydraulic function for a longer time
- Slim soft-close seat cover
- Resistance against scratches
- Good load-bearing capacity

| 1. Water Absorption                                                                          | Average value should not exceed more than 0.5%                                         | Max 0.30% show better vitrification                                    |
| 2. Crazing Test                                                                              | No crazing up to 2 cycle up 5 hrs each cycle or 10 hours at pressure 0.34 to 0.37 Mps. | No problem up to 4 cycle and no crazing                                |
| 3. Chemical Resistance                                                                       | No loss of reflectivity of the glaze when compared with control sample.                | No loss of reflectivity of the glaze when compared with control sample |
| 4. Modules of Repture                                                                        | Not less than 60 Mpa.                                                                  | Min. 65 Mpa. / Min. 80 Mpa.                                            |
| 5. Resistance to Staining and Burning                                                        | No stain shall remain on either of test piece                                          | No stain shall remain on either of test piece                          |
| 6. Discoloration                                                                             | None on all visible surface                                                            | None on all visible surface                                            |
| 7. Wavy Finish                                                                               | None on all visible surface                                                            | None on all visible surface                                            |
| Note : All products dimension may vary 10% to 15% from the dimension given in the catalogue. |                                                                                        |                                                                        |

### WALL HUNG BASIN

As per shown in the picture, the rag bolt must be grouted into the cement/concrete wall. The bolts must be fixed to the cement/concrete wall. Allow setting & checking than install it using nut and washer.

### COUNTER WASHBASIN

At the beginning

1. A skilled or experienced person should install counter lavatories.
2. Avoid using adhesive with this product.
3. Check the waste area and supply tubing if required.
4. Do not open the lavatory from its protective carton until you are ready for installation.
5. Please follow all local building and plumbing codes.

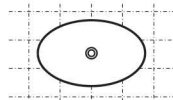

### MATERIAL & TOOLS

Measure tape, Keyhole or saber saw, Hammer, Glasses, Rags or Paper toweling, Drill (1/2 dia, drill bit or larger), Pencil, sealant, sharp knife or scissors.

### INSTALLATION OF LAVATORY

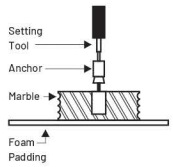

Please Note : Please install it in a way that future removal from underneath the counter top is possible without damaging the counter top.

1. Please check the desired location for clearance between the back splash, faucet, Fixture and cabinet.
2. Please cut the template.
3. Please carefully trace the template on the counter top directed.
4. Please mark the faucet hole centerline on the counter top.
5. Please drill a 1/2" pilot on the inside of the cut line.

### FOR WOOD COUNTER TOPS:

1. Mark and per-drill the wood screw holes at the locations shown on the template.
2. Waterproof any exposed areas of wood.

### FOR MARBLE COUNTER TOPS:

1. Position the counter top upside down on foam padding to protect the surface. Mark and drill 3/6" holes 5/8" deep at the locations shown on the template.
2. Use a setting tool and hammer to secure the anchors.

### FOR ALL INSTALLATIONS:

1. If the counter top has not been installed, install it at this time.
2. Drill the faucet holes according to the faucet installation instructions.
3. Install the faucet to the counter top according to the manufacture's instructions.
4. Install the drain to the lavatory according to the manufacture's instructions.

### MAINTENANCE

Like any other part of your house, the bathroom can be made to look great and made to last long if it is taken care of regularly. To make your bathroom beautiful here are some invaluable tips.

Wash Basin :

A mild detergent can be used to wash the basin at least once a day. After washing, the basin should be wiped out clearly to avoid water stains.

Closets :

Cleanser like Harpic can be used to clear the closet with soft plastic brush, at least once a day.

To avoid minute discoloring, after flushing the toilet give it a once over with the soft brush.

Keep the toilet brush handy in a convenient stand nearby.

In case of toilets and basins, if there has been no maintenance since long period of time, water deposits and discoloration can form on the surface of areas that get wet. In such cases, these stains/marks can be removed with the help of a solution of dilute hydrochloric acid.

Clean with a soft cotton cloth and warm water with soap.

Do not use thinner, day cleaning liquids or powder paste. Use a liquid cleaner at least twice a week.

Use brasso or car rubbing compound and then polish with a cloth to remove fine scratches.

NOTE..
